

Proiect cofinanțat de Uniunea Europeană prin Programul Operațional Capitalul Uman 2014-2020

Axa prioritară 6 – Educație și competențe

Obiectivul specific 6.13 Creșterea numărului absolvenților de învățământ terțiar universitar și non universitar care își găsesc un loc de muncă urmare a accesului la activități de învățare la un potențial loc de muncă / cercetare/ inovare, cu accent pe sectoarele economice cu potențial competitiv identificate conform SNC și domeniile de specializare inteligentă conform SNCI

Beneficiar: ACADEMIA DE STUDII ECONOMICE DIN BUCUREȘTI

Practică inteligent dezvoltarea ta – PRIDE-U POCU/626/6/13/133138

Avizat,
Manager proiect,
Conf. univ. dr. Cristian MARINAȘ

Studiu de caz - Înțelegerea pieței de sângerare capilară

Variantă finala - cerință

Elaborat de:
Conf. Univ. Dr. Vasile Alecsandru STRAT
EXPERT DEZVOLTARE MATERIALE DE ÎNVĂȚARE

August 2022,

Proiect cofinanțat de Uniunea Europeană prin Programul Operațional Capitalul Uman 2014-2020

Studiu de caz: Înțelegerea pieței sângerării capilare

Introducere

Împreună cu colegii tăi sunteți angajați în departamentul de analiză și previziune al unei companii de consultanță. Pe baza unui studiu desfasurat în 9 țări pe care îl efectuați ați primit cerința de a realiza un raport cu privire la înțelegerea pieței în ceea ce sunt privite produsele destinate ameliorării sângerării capitale. Reprezentantul companiei, unul dintre parteneri, va participa luna viitoare la un important congres medical, unde va trebui să susțină o prezentare. În cadrul evenimentului vor participa 200 de invitați din principalele companii din industria producătoare de medicamente dar și reprezentanți ai medicilor.

Evenimentul este unul în care participanții invitați să susțină prezentări trebuie să aducă o perspectivă asupra diferitelor piețe de produse medicale și a percepției pieței pentru a facilita companiilor producătoare dezvoltarea unor strategii potrivite. De asemenea, partenerul companiei voastre urmărește creșterea profilului companiei și identificarea unor noi potențiali clienți pentru dezvoltarea portofoliului propriu. În acest context, prezentarea pe care o va susține partenerul din cadrul companiei tale va avea o vizibilitate semnificativă și este importantă pentru a putea genera noi conexiuni de afaceri pentru companie și de asemenea pentru a crește nivelul de încredere pe care îl au medicii în utilizarea produselor evaluate în cadrul studiului vostru.

În solicitarea pe care adresat-o partenerul departamentului de analiză și previziune s-a menționat că prezentarea pe care trebuie să o susțină ar trebui să includă maxim 50 slide-uri pentru a se putea încadra în cele 45 minute care îi sunt dedicate. De asemenea, având în vedere audiența el preferă să aibă o prezentare care să includă elemente cantitative vizuale, în special grafice

Proiect cofinanțat de Uniunea Europeană prin Programul Operațional Capitalul Uman 2014-2020

Axa prioritară 6 – Educație și competențe

Obiectivul specific 6.13 Creșterea numărului absolvenților de învățământ terțiar universitar și non universitar care își găsesc un loc de muncă urmare a accesului la activități de învățare la un potențial loc de muncă / cercetare/ inovare, cu accent pe sectoarele economice cu potențial competitiv identificate conform SNC și domeniile de specializare inteligentă conform SNCI

(infografice), care să permită înțelegerea ideilor principale foarte simplu. De asemenea, pentru că povestea pe care o spui este foarte importantă în acest domeniu, partenerul solicită o prezentare care să îi permită să creeze foarte ușor în cadrul evenimentului o poveste (un narativ clar și interesant – “storytelling”). Acesta nu își dorește o prezentare care să includă explicații elaborate dar totuși consideră utilă includerea unor concluzii și a unui scurt rezumat (de tip Executive Summary)

Problema

Pe baza cerințelor (brief-ului) primite de la partener și pe baza datelor pe care le are în baza de date, managerul echipei de analiză de date stabilește o structură a prezentării. Prezentarea va trebui să ofere participanților elemente cu privire la următoarele elemente:

- Prezența obiectivelor studiului și recapitularea metodologiei
- Realizați profilul HCP pentru fiecare dintre țările incluse în studiu
- Prezența dinamicii pacienților pentru fiecare dintre țările incluse în studiu
- Prezența soluțiilor de gestionare a sângerărilor capilare pentru fiecare dintre țările incluse în studiu
- Prezența metodei de hemostază pentru fiecare dintre țările incluse în studiu
- Prezența evaluării terapiei de sângerare capilară pentru fiecare dintre țările incluse în studiu
- Prezența unui set de concluzii generale

Pentru fiecare dintre variabilele datele au fost colectate pentru cele nouă țări .

Pentru fiecare dintre aceste țări au fost colectate date de la următoarele eșantioane:

Czech Rep – 140 respondenți

Ivory Coast – 140 respondenți

Proiect cofinanțat de Uniunea Europeană prin Programul Operațional Capitalul Uman 2014-2020

Axa prioritară 6 – Educație și competențe

Obiectivul specific 6.13 Creșterea numărului absolvenților de învățământ terțiar universitar și non universitar care își găsesc un loc de muncă urmare a accesului la activități de învățare la un potențial loc de muncă / cercetare/ inovare, cu accent pe sectoarele economice cu potențial competitiv identificate conform SNC și domeniile de specializare inteligentă conform SNCI

Beneficiar: ACADEMIA DE STUDII ECONOMICE DIN BUCUREȘTI

Practică inteligent dezvoltarea ta – PRIDE-U POCU/626/6/13/133138

Egypt – 141 respondenti

Saudi Arabia – 140 respondenti

Ecuador – 140 respondenti

Guatemala – 141 respondenti

Algeria – 140 respondenti

Pe baza structurii stabilite el construiește și structura tehnică și tipul elemente care trebuie realizate pentru a putea construi prezentarea pe care o va utiliza partenerul. Managerul decide că el va fi cel care va realiza povestea finală a prezentării și îi solicită ție să incluzi următoarele elemente în prezentare și să încerci să le prezinți într-o ordine logică care să faciliteze contruirea poveștii care va fi prezentată în cadrul evenimentului.

Misiunea dumneavoastră

A. Utilizați fișierul Excel pentru a răspunde tuturor punctelor formulate mai sus de către managerul departamentului de analiză de date!

B. Produceți un PPT de cel mult 45 slide-uri pentru a vă prezenta perspectivele. Pentru fiecare dintre cele 7 puncte menționate de manager includeți o prezentare vizuală bazată pe grafice. De asemenea, pentru fiecare punct aveți în vedere dinamica fenomenului și încercați să o prezentați

RESPID TARA S1. Care dintre urmatoarele descrie cel mai bine respid	S2. În ce cadru activitateți în principal? Q_con	S4. Ce procent din timpul dumneavoastră este S1	S5. Câți pacienți individuali/unici vezi și tratezi personal, în S2
